SummaryV2 ver 2.04

How to run SummaryV2.exe ?
Double click SummaryV2.exe or set SummaryV2.exe as a utility in Logger32 utility menu. Do not forget to run SummaryV2.exe as administrator.

When you run SummaryV2 for the first time,
File selection window appears. You must select Logbook adif exported from Logger32.
If you want to use another Logbook adif then clcik "File" then "Open adi file" to select Logbook adif file.
All windows can be positioned anywhere you prefer. Main window size (width and height) is fixed, however other windows are resizable. Summary read Logbook adif whenever it starts. You need to export the latest Logbook adif.
This utility shows worked number except "All time table"

Main form
Stats for the latest year, last used mode and "All Band" are displayed at startup. In most case, the latest year is equal to this year.
You can select year and/or mode and/or band anytime you want. If the number displayed in the table is above 100 for DXCC, equal to 40 for WAZ, equal to 50 for WAS and equal to 6 for WAC, then the cells are highlighted with Green color.

Click "All time chart" to see All time chart, then click item.
Click "All time award summary" to see several award tables
Click "More chart" to see interesting chart, then click item.
